

## Kaptur DiamondJet K1 - 0.6mm

Indeks: **856904** Producent: **US Synthetic** Kod producenta: **DBK1-175**

Cena: **684.06 zł**

### Opis

## DiamondBack K1 Compatible Nozzle - 0.6mm

Producent: US Synthetic

- The Diamondback Science team has been developing world-class diamond products for the energy industry for more than 40 years. Members of the team recently developed a proprietary Polycrystalline Diamond (PCD) nozzle to be used in 3D printing that can handle the most challenging applications!
- Easier to clean and reduces tip clogging, improves layer adhesion, has a solid diamond tip, any filaments, longer life, lowers operating temperature, and delivers unmatched wear resistance!
- DiamondBack nozzles rely on a solid diamond tip to improve precision 3D printing. The tip is not a diamond coating, but rather a solid diamond substrate made of polycrystalline diamond.
- **zawarte komponenty:** DiamondBack K1 Compatible Nozzle - 0.6mm
- **punkt znaku wypunktowania:** The Diamondback Science team has been developing world-class diamond products for the energy industry for more than 40 years.
