

BOSS WL-20L System Bezprzewodowy dla Gitar i Basów

Indeks: **785065** Producent: **Roland** Kod producenta: **WL-20L**

Cena: **815.85 zł**

Opis

BOSS WL-20L Wireless System

Producent: Roland

- Plug-and-play wireless systems for guitar, bass, and other electronic instruments.
- No complicated setup required—simply dock the transmitter and receiver together for about 10 seconds to set the optimum wireless connection.
- Newly developed BOSS technology delivers premium audio performance with rock-solid stability, ultra-low latency (2.3 ms), and 50-foot/15-meter range (line-of-sight propagation)*
- Built-in rechargeable batteries provide up to 12 hours of continuous playing time**
- Simple charging with a standard USB adaptor (5 V/500 mA or greater).
- Cable tone simulation reproduces the natural capacitive effect of a 10-foot/3-meter guitar cable (WL-20 model only).
- Spare WL-T Transmitter available separately.
- * The transmission range may vary due to local conditions.
- ** A full charge provides 12 hours of time for the transmitter and 7 hours for the receiver.
