

Ekologia Chemiczna: Zrównoważony wpływ morskich produktów naturalnych

Indeks: 765149 Producent: CRC Press Kod producenta: part_0367733307

Cena: 251.23 zł

Opis

Chemical Ecology: The Ecological Impacts of Marine Natural Products

Producent: CRC Press

- **temat:** NATURE / Ecology, Nature/Ecology, SCIENCE / Chemistry / General, SCIENCE / Life Sciences / Marine Biology, Science/Chemistry - General, Science/Life Sciences - Ecology, Science/Life Sciences - Marine Biology, ANF: Environment and Ecology, Algal Metabolites, Alistair G. B. Poore, Amy L. Lane, Anti-settlement Activity, Benthic Marine Invertebrates, Bill J. Baker, Biochemistry, Biodiversity, Botany & plant sciences, Botany and plant sciences, Charles D. Amsler, Chemical Defenses, Chemistry, Chemistry - General, Condensed Tannin Concentrations, Conxita Avila, DESI MS, David C. Rowley, David J. Newman, Dianna K. Padilla, Ecological science, the Biosphere, Ecology, Emily K. Prince, Erik E. Sotka, Feeding Deterrent, General, Gordon M. Cragg, Grace Lim-Fong, HAB Species, HAB Toxin, Invertebrate Larvae, Jacqueline L. von Salm, James B. McClintock, Jan Tebben, Jason R. Graff, Jennifer M. Sneed, Juan Moles, Kathryn L. Van Alstyne, Kathryn M. Schoenrock, Kelsey L. Poulson-Ellestad, Larval Settlement, Laura Núñez-Pons, Lethal Concentrations, Life Sciences, Life Sciences - Ecology, Life Sciences - Marine Biology, MS Imaging, Mareen Möller, Marine Biofilms, Marine Herbivores, Marine Invertebrate Larvae, Marine Natural Products, Marine Natural Products; Secondary Metabolites; Chemical Defenses; DESI MS; Algal Metabolites; Feeding Deterrent; Larval Settlement; Marine Herbivores; MS Imaging; Settlement Cues; Natural Product Biosynthesis; Vibrio Cholerae; HAB Species; Marine Invertebrate Larvae; Western Antarctic Peninsula; Porites Astreoides; HAB Toxin; Invertebrate Larvae; Condensed Tannin Concentrations; Natural Biofilms; Marine Biofilms; Lethal Concentrations; Sponge Species; Anti-settlement Activity; Benthic Marine Invertebrates, Marine biology, Marine chemical ecology, NATURE, NATURE / Ecology, Natural Biofilms, Natural Product Biosynthesis, Nature/Ecology, Non-Fiction, Peter J. Schupp, Porites Astreoides, Rian Kabir, SCIENCE / Chemistry / General, SCIENCE / Life Sciences / Marine Biology, Science, Science/Chemistry - General, Science/Life Sciences - Ecology, Science/Life Sciences - Marine Biology, Secondary Metabolites, Settlement Cues, Social impact of environmental issues, Sponge Species, Sven Rohde, TEXT, Taylor A. Lundy, Tilmann Harder, Veijo Jormalainen, Vibrio Cholerae, Western Antarctic Peninsula, compounds, defenses, defensive, deterrent, feeding, marine, metabolites, natural, products, secondary, Biodiversity, Botany and plant sciences, Chemistry, Marine biology, Social impact of environmental issues, Biochemistry, Botany & plant sciences, Ecological science, the Biosphere
- **wiązący:** paperback
- **język:** english, english, english
- **waga przedmiotu:** 0.59 kilograms
- **strony:** 416
- **słowo kluczowe tematu:** Marine Natural Products; Secondary Metabolites; Chemical Defenses; DESI MS; Algal Metabolites; Feeding Deterrent; Larval Settlement; Marine Herbivores; MS Imaging; Settlement Cues; Natural Product Biosynthesis; Vibrio Cholerae; HAB Species; Marine Invertebrate Larvae; Western Antarctic Peninsula; Porites Astreoides; HAB Toxin; Invertebrate Larvae; Condensed Tannin Concentrations; Natural Biofilms; Marine Biofilms; Lethal Concentrations; Sponge Species; Anti-settlement Activity; Benthic Marine Invertebrates, Marine Natural

Products; Secondary Metabolites; Chemical Defenses; DESI MS; Algal Metabolites; Feeding Deterrent; Larval Settlement; Marine Herbivores; MS Imaging; Settlement Cues; Natural Product Biosynthesis; Vibrio Cholerae; HAB Species; Marine Invertebrate Larvae; Western Antarctic Peninsula; Porites Astreoides; HAB Toxin; Invertebrate Larvae; Condensed Tannin Concentrations; Natural Biofilms; Marine Biofilms; Lethal Concentrations; Sponge Species; Anti-settlement Activity; Benthic Marine Invertebrates; secondary; metabolites; defenses; marine; natural; products; feeding; deterrent; defensive; compounds; David J. Newman; Gordon M. Cragg; Jacqueline L. von Salm; Kathryn M. Schoenrock; James B. McClintock; Charles D. Amsler; Bill J. Baker; Conxita Avila; Laura Núñez-Pons; Juan Moles; Kathryn L. Van Alstyne; Dianna K. Padilla; Erik E. Sotka; Veijo Jormalainen; Alistair G. B. Poore; Jennifer M. Sneed; Jason R. Graff; David C. Rowley; Amy L. Lane; Taylor A. Lundy; Emily K. Prince; Kelsey L. Poulson-Ellestad; Tilmann Harder; Jan Tebben; Mareen Möller; Peter J. Schupp; Grace Lim-Fong; Rian Kabir; Sven Rohde, Nature/Ecology, Non-Fiction, TEXT

- **marka:** CRC Press
- **kod unspsc:** 55101500
- **kod podmiotu:** NAT010000, NAT010000, SCI013000, SCI039000, SCI013000, SCI020000, SCI039000, RNCB, PST, PN, PSPM, RNT, PSB, PST, PSAF
- **grupa docelowa:** General/trade
- **waga opakowania przedmiotu:** 0.63 kilograms
- **zewnętrznie przypisany identyfikator produktu:** 0367733307, 9780367733308, 09780367733308
- **producent:** CRC Press
- **gatunek muzyczny:** Biodiversity, Marine biology, Chemistry, Botany and plant sciences
- **Data publikacji:** 2020-12-18T00:00:01Z
- **numer wydania:** 1
- **nazwa przedmiotu:** Chemical Ecology: The Ecological Impacts of Marine Natural Products
- **data premiery:** 2020-12-18T00:00:01Z
- **data uruchomienia strony produktu:** 2020-10-14T12:01:27.367Z

Parametry

Język	Polski
Wydawnictwo	CRC Press
Waga produktu	0.59 kg
Ilość stron	416
Data publikacji	2020-12-18
