Opis

Modern Infectious Disease Epidemiology

Producent: CRC Press

- **temat:** Epidemiology & medical statistics, Epidemiology & medical statistics, Infectious & contagious diseases, Infectious & contagious diseases, Biologie, Biowissenschaften, Englische Bücher / Naturwissenschaften / Medizin, Epidemiologie, MEDICAL / Biostatistics, MEDICAL / Epidemiology, MEDICAL / Infectious Diseases, Medical/Epidemiology, Medical/Infectious Diseases, ANF: Health and Wellbeing, Antimicrobial Resistance, Attack Rate, Biologie, Biology, life sciences, Biostatistics, Biowissenschaften, Campylobacter Infection, Case Control Study, Cervical Cancer, Communicable Diseases - epidemiology, Communicable Diseases;epidemiology., Communicable diseases, Contact Pattern, EPIDEMIOLOGY, Englische Bücher, Englische Bücher / Naturwissenschaften / Medizin, Enterohaemorrhagic Escherichia Coli, Epidemic Curve, Epidemic Curves, Epidemiologic Methods, Epidemiologic Methods., Epidemiologie, Epidemiology & medical statistics, Epidemiology & medical statistics, Epidemiology and Medical statistics, HC, HC/Medizin, HC/Medizin/Klinische Fächer, Herd Immunity, Human Papilloma Virus, Infectious & contagious diseases, Infectious & contagious diseases, Infectious Disease Epidemiology, Infectious Diseases, Infectious and contagious diseases, Infektion, Infektion / Infektionskrankheiten, Infektionskrankheiten, Infektiöse und ansteckende Krankheiten, Klinische Fächer, Lassa Fever, Literatura obcojezyczna, MAJORS, MEDICAL, MEDICAL / Biostatistics, MEDICAL / Epidemiology, MEDICAL / Infectious Diseases, Medical/Epidemiology, Medical/Infectious Diseases, Medizin, National Hospital Discharge Registry, Naturwissenschaften, Non-Fiction, Phage Typing, Point Source Outbreak, Previous STI, Real Time Polymerase Chain Reaction, SCCS., Salmonella Infection, Scholarly, Scholarly/Undergraduate, Serial Interval, Textbooks (Various Levels), Tick Bite, Undergraduate, Vaccination Status, Vice Versa, Year's Dinner, attack, attack; case; chlamydia; condence; control; infection; interval; odds; rate; study; Infectious Disease Epidemiology; Case Control Study; Contact Pattern; Epidemic Curve; Cervical Cancer; Vaccination Status; National Hospital Discharge Registry; Vice Versa; Herd Immunity; Epidemic Curves; Campylobacter Infection; Real Time Polymerase Chain Reaction; Lassa Fever; Previous STI; SCCS.; Antimicrobial Resistance; Salmonella Infection; Point Source Outbreak; Phage Typing; Enterohaemorrhagic Escherichia Coli, case, chlamydia, condence, control, infection, interval, odds, rate, study, Biology, life sciences, Epidemiology and Medical statistics, Infectious and contagious diseases, Infektiöse und ansteckende Krankheiten, HC/Medizin, HC/Medizin/Klinische Fächer
- **wiązący:** paperback
- **język:** english, english, english, english
- **waga przedmiotu:** 0.44 kilograms
- **strony:** 246
- **słowo kluczowe tematu:** Literatura obcojezyczna, Previous STI; condence; National Hospital Discharge Registry; interval; SCCS.; case; Infectious Disease Epidemiology; control; Vice Versa; study; Antimicrobial Resistance; attack; Real Time Polymerase Chain Reaction; rate; Lassa Fever; chlamydia; Salmonella Infection; infection; Cervical Cancer; odds; Campylobacter Infection; Epidemic Curve; Contact Pattern; Vaccination Status; Case Control Study; Point Source Outbreak; Epidemic Curves; Herd Immunity; Phage Typing; Enterohaemorrhagic Escherichia Coli; Tick Bite; Year's Dinner; Attack Rate; Serial Interval; Human Papilloma Virus, attack; case; chlamydia; condence; control; infection; interval; odds; rate; study; Infectious Disease Epidemiology; Case Control Study; Contact Pattern; Epidemic

Curve; Cervical Cancer; Vaccination Status; National Hospital Discharge Registry; Vice Versa; Herd Immunity; Epidemic Curves; Campylobacter Infection; Real Time Polymerase Chain Reaction; Lassa Fever; Previous STI; SCCS.; Antimicrobial Resistance; Salmonella Infection; Point Source Outbreak; Phage Typing; Enterohaemorrhagic Escherichia Coli

- **marka:** CRC Press
- **kod unspsc:** 55101500
- **kod podmiotu:** MED090000, MED028000, MED022090, MED028000, MED022090, 1690, 1693, PS, MBNS, MJCJ, MJCJ, BIOL3000, BIOW5000, ENGM4550, EPID6000, MBNS, MBNS, MJCJ, MJCJ
- **grupa docelowa:** Professional and scholarly
- **format:** illustrated
- **Liczba przedmiotów:** 1
- **numer części:** 36698918
- **waga opakowania przedmiotu:** 0.48 kilograms
- **wydanie:** 3.
- **zewnętrznie przypisany identyfikator produktu:** 1444180029, 9781444180022, 9781444180022, 09781444180022
- **producent:** CRC Press
- **autor:** Giesecke, Johan
- **gatunek muzyczny:** Biologie, Biowissenschaften, Englische Bücher, Naturwissenschaften, Medizin, Epidemiologie, HC, Medizin, Infektiöse und ansteckende Krankheiten
- **Data publikacji:** 2017-04-05T00:00:01Z
- **numer wydania:** 3
- **nazwa przedmiotu:** Modern Infectious Disease Epidemiology
- **data premiery:** 2017-04-05T00:00:01Z
- **data uruchomienia strony produktu:** 2012-10-12T02:55:29.759Z

Parametry

Wydanie	3.
Ilość stron	246
Typ oprawy	papierowa
