

Fale Grawitacyjne: Historia Odkryć

Indeks: 705357 Producent: Routledge

Cena: 186.57 zł

Opis

Gravitational Waves: A History of Discovery

Producent: Routledge

- **temat:** Astrophysics, Relativity physics, SCIENCE / Physics / General, SCIENCE / Physics / Mathematical & Computational, Science / Physics / Astrophysics, Science/Physics - Astrophysics, Science/Physics - Mathematical & Computational, Technology & Engineering/Power Resources - Nuclear, ANF: Science, Astrophysics, Astrophysik, Black holes; Black hole merger; Einstein; Gravitational lensing; Gravitational wave detectors; Theory of relativity; direct measurement; gravitational-wave astronomy; space interferometer; supermassive black holes; terrestrial detectors; Gravitational Wave; Squeezed Vacuum; Gravitational Wave Signal; Neutron Stars; Merging Neutron Stars; Seismic Isolation; Gravitational Wave Astronomy; Rotating Neutron Stars; Fabry Perot Resonators; GRBs; Test Masses; Power Recycling; Michelson Interferometer; Resonant Antennas, General, Gravitational waves, Gravitational waves - Research - History, HC, HC/Physik, Astronomie, Mathematical & Computational, Physics, Physics - Astrophysics, Physics - Mathematical & Computational, Physik, Astronomie, Power Resources - Nuclear, Relativity physics, SCIENCE / Physics / Astrophysics, SCIENCE / Physics / General, SCIENCE / Physics / Mathematical & Computational, Science, Science/Physics - Astrophysics, Science/Physics - Mathematical & Computational, Technology & Engineering, Technology & Engineering/Power Resources - Nuclear, Astrophysik, HC/Physik, Astronomie
- **wiążący:** paperback
- **język:** english, english, english
- **waga przedmiotu:** 0.18 kilograms
- **strony:** 146
- **słowo kluczowe tematu:** Black holes; Black hole merger; Einstein; Gravitational lensing; Gravitational wave detectors; Theory of relativity; direct measurement; gravitational-wave astronomy; space interferometer; supermassive black holes; terrestrial detectors; Gravitational Wave; Squeezed Vacuum; Gravitational Wave Signal; Neutron Stars; Merging Neutron Stars; Seismic Isolation; Gravitational Wave Astronomy; Rotating Neutron Stars; Fabry Perot Resonators; GRBs; Test Masses; Power Recycling; Michelson Interferometer; Resonant Antennas
- **marka:** CRC Press
- **kod unspsc:** 55101500
- **kod podmiotu:** SCI055000, SCI040000, SCI005000, SCI005000, SCI040000, TEC028000, 1640, PHVB, PHVB, PHR
- **grupa docelowa:** General/trade
- **waga opakowania przedmiotu:** 0.2 kilograms
- **zewnętrznie przypisany identyfikator produktu:** 0367136813, 9780367136819, 09780367136819
- **producent:** Routledge
- **autor:** Grote, Hartmut
- **gatunek muzyczny:** HC, Physik, Astronomie, Astrophysik
- **Data publikacji:** 2019-12-10T00:00:01Z
- **numer wydania:** 1
- **nazwa przedmiotu:** Gravitational Waves: A History of Discovery
- **data premiery:** 2019-12-10T00:00:01Z
- **data uruchomienia strony produktu:** 2019-08-27T04:43:47.400Z

Parametry

Producent	Routledge
ISBN	9780367136819
Data publikacji	2019-12-10
Liczba stron	146
