

MINIX SilentBox Z150-0dB Mini PC

Indeks: **882086** Producent: **MINIX Technology Limited** Kod producenta: **NEO Z150-0dB**

Cena: **1,314.00 zł**

Opis

MINIX Z150-0dB Fanless Mini PC, Intel N150, 16GB DDR4, 512GB M.2 PCIe Gen3 x 4 NVMe SSD Mini Desktop Computer, 4K Dual Display/2.5G LAN/USB3.2/USB-C/Vesa Mount/Auto Power On for Office Business

Producent: MINIX Technology Limited

- [Intel Twin Lake N150 Processor] The Intel N150 CPU, an entry-level processor, is efficient for fanless mini PCs. With Intel UHD Graphics, it handles basic tasks well. Its low power usage, affordability, and suitability for web browsing and office applications make it a practical choice for quiet and compact computing setups
- [Fanless passive cooling design] Z150-0dB fanless miniPCs excel in scenarios prioritizing noise reduction, reliability, low maintenance, dust-free operation, no vibration, energy efficiency, and a compact form factor. Their versatility makes them ideal for home entertainment, office settings, industrial applications, and environments highly sensitive to noise pollution
- [Efficient RAM Cooling] This exclusive feature enhances thermal dissipation, safeguarding memory performance and reliability. Stand out with a system that prioritizes efficient heat management, ensuring optimal functionality without compromising on design or silence
- [No throttling] The Z150-0dB fanless mini PC featuring an Intel N150 CPU stands out by preserving full CPU power without underclocking to mitigate heat. This unique approach avoids throttling problems, ensuring sustained performance, optimal power usage, and reliability, distinguishing it from competitors' solutions prioritizing thermal management through underclocking.
- [Anti Static Design] Compared to many competitors, our Z150-0dB with robust anti-static hardware protection offers a distinct advantage by prioritizing component longevity and stability. This protection mechanism minimizes the risk of damage from electrostatic discharge, ensuring superior reliability, extended lifespan, and sustained performance, setting it apart in the market

Parametry

Procesor	Intel N150
RAM	16GB DDR4
Dysk	512GB M.2 PCIe Gen3
Chłodzenie	Bezwentylatorowe
Złącza	USB 3.2, USB-C, 2.5G LAN
