

Prognozowanie Czasu Życia Budynków: Metodologia Skupiona na Okładzinach Fasadowych

Indeks: **782577** Producent: **Springer** Kod producenta: **9783319814773**

Cena: 761.92 zł

Opis

Methodologies for Service Life Prediction of Buildings: With a Focus on Façade Claddings (Green Energy and Technology)

Producent: Springer

- temat:** Computer modelling & simulation, Conservation of buildings & building materials, Electronics engineering, Industrial / commercial art & design, Mathematical modelling, Maths for engineers, Probability & statistics, Computers / Computer Simulation, DESIGN / Industrial, MATHEMATICS / Applied, MATHEMATICS / Probability & Statistics / General, Technology & Engineering / Civil / General, Technology & Engineering / Nanotechnology & MEMS, ANF: Technology, ARCHITECTURE / Design, Drafting, Drawing & Presentation, ARCHITECTURE / Professional Practice, Allgemeines, Lexika, Anwendungs-Software, Applied, Applied mathematics, Architectural structure & design, Architectural structure and design, Architecture, Architecture/Design, Drafting, Drawing & Presentation, Architecture: professional practice, Bautechnik, Umwelttechnik, Buidling Durability Prediction, Buidling Durability Prediction; Computational Models Deterministic Models Facade Claddings Building; Factorial Models Service Life Prediction of buildings; Identifying Patterns of Degradation; Mathematical Models Service Life Prediction of buildings; Service Life Facade Claddings; Service Life Prediction of Buildings; Statistical Tools Service Life Prediction of Buildings; Statistical Tools Sustainable Construction; Stochastic Models Service Life Prediction of buildings, Buidling Durability Prediction; Computational Models Service Life prediction of Buildings; Deterministic Models Service Life Prediction of buildings; Facade Claddings Building; Factorial Models Service Life Prediction of buildings; Identifying Patterns of Degradation; Mathematical Models Service Life Prediction of buildings; Service Life Facade Claddings; Service Life Prediction of Buildings; Statistical Tools Service Life Prediction of Buildings; Statistical Tools Sustainable Construction; Stochastic Models Service Life Prediction of buildings, Buidling Durability Prediction; Computational Models Service Life prediction of Buildings; Deterministic Models Service Life Prediction of buildings; Facade Claddings Building; Factorial Models Service Life Prediction of buildings; Identifying Patterns of Degradation; Mathematical Models Service Life Prediction of buildings; Service Life Facade Claddings; Service Life Prediction of Buildings; Statistical Tools Service Life Prediction of Buildings; Statistical Tools Sustainable Construction; Stochastic Models Service Life Prediction of buildings, Building Repair and Maintenance, COMPUTERS, COMPUTERS / Computer Simulation, Civil, Civil - General, Civil engineering, surveying & building, Civil engineering, surveying and building, Computational Models Service Life prediction of Bu, Computational Models Service Life prediction of Buildings, Computer Modelling, Computer Simulation, Computer modelling & simulation, Computer modelling and simulation, Computermodellierung und -simulation, Computers/Computer Simulation, Conservation of buildings & building materials, Conservation of buildings and building materials, DESIGN, DESIGN / Industrial, Design, Drafting, Drawing & Presentation, Design, Industrial and commercial arts, illustration, Design, industrielle und kommerzielle Kunst, Illustration, Design/Industrial, Deterministic Models Service Life Prediction of bu, Deterministic Models Service Life Prediction of buildings, Electronics engineering, Elektronik, Erhaltung von Gebäuden und Baustoffen (Denkmalpflege), Facade Claddings Building, Factorial Models Service Life Prediction of buildi, Factorial Models Service Life Prediction of buildings, General, HC, HC/Informatik, EDV/Anwendungs-Software, HC/Kunst/Innenarchitektur, Design,

HC/Mathematik/Wahrscheinlichkeitstheorie, Stochastik, Mathematische Statistik, HC/Technik/Allgemeines, Lexika, HC/Technik/Bautechnik, Umwelttechnik, Hardcover, Softcover, Hardcover, Softcover / Technik/Allgemeines, Lexika, Identifying Patterns of Degradation, Industrial, Industrial / commercial art & design, Industrial Design, Industriedesign, Produktdesign, Werbegrafik, Industrielle Fertigung, Informatik, EDV, Innenarchitektur, Design, Kunst, MATHEMATICS, MATHEMATICS / Applied, MATHEMATICS / Probability & Statistics / General, Mathematical Modeling and Industrial Mathematics, Mathematical Models Service Life Prediction of bui, Mathematical Models Service Life Prediction of buildings, Mathematical modelling, Mathematics/Applied, Mathematics/Probability & Statistics - General, Mathematik, Mathematik für Ingenieure, Mathematische Modellierung, Maths for engineers, Microsystems and MEMS, Nanotechnology, Nanotechnology & MEMS, Non-Fiction, Probability & Statistics - General, Probability & statistics, Probability and statistics, Professional Practice, SCI/TECH, Science/Math, Service Life Facade Claddings, Service Life Prediction of Buildings, Statistical Tools Service Life Prediction of Build, Statistical Tools Service Life Prediction of Buildings, Statistical Tools Sustainable Construction, Statistics in Engineering, Physics, Computer Science, Chemistry and Earth Sciences, Stochastic Models Service Life Prediction of build, Stochastic Models Service Life Prediction of buildings, Switzerland, TECHNOLOGY & ENGINEERING, TECHNOLOGY & ENGINEERING / Civil / General, TECHNOLOGY & ENGINEERING / Nanotechnology & MEMS, Technik, Technology & Engineering/Civil - General, Technology & Engineering/Nanotechnology & MEMS, Verstehen, Wahrscheinlichkeitsrechnung und Statistik, Wahrscheinlichkeitstheorie, Stochastik, Mathematische Statistik, commercial art & design, Computer modelling and simulation, Conservation of buildings and building materials, HC/Informatik, EDV/Anwendungs-Software, HC/Kunst/Innenarchitektur, Design, HC/Mathematik/Wahrscheinlichkeitstheorie, Stochastik, Mathematische Statistik, HC/Technik/Allgemeines, Lexika, HC/Technik/Bautechnik, Umwelttechnik

- **wiażący:** paperback
- **język:** english, english, english
- **waga przedmiotu:** 612 grams
- **strony:** 440
- **słowo kluczowe tematu:** Budling Durability Prediction, Budling Durability Prediction; Computational Models Deterministic Models Facade Claddings Building; Factorial Models Service Life Prediction of buildings; Identifying Patterns of Degradation; Mathematical Models Service Life Prediction of buildings; Service Life Facade Claddings; Service Life Prediction of Buildings; Statistical Tools Service Life Prediction of Buildings; Statistical Tools Sustainable Construction; Stochastic Models Service Life Prediction of buildings, Budling Durability Prediction; Computational Models Service Life prediction of Bu; Deterministic Models Service Life Prediction of bu; Facade Claddings Building; Factorial Models Service Life Prediction of buildi; Identifying Patterns of Degradation; Mathematical Models Service Life Prediction of bui; Service Life Facade Claddings; Service Life Prediction of Buildings; Statistical Tools Service Life Prediction of Build; Statistical Tools Sustainable Construction; Stochastic Models Service Life Prediction of build, Budling Durability Prediction; Computational Models Service Life prediction of Buildings; Deterministic Models Service Life Prediction of buildings; Facade Claddings Building; Factorial Models Service Life Prediction of buildings; Identifying Patterns of Degradation; Mathematical Models Service Life Prediction of buildings; Service Life Facade Claddings; Service Life Prediction of Buildings; Statistical Tools Service Life Prediction of Buildings; Statistical Tools Sustainable Construction; Stochastic Models Service Life Prediction of buildings, Budling Durability Prediction; Computational Models Service Life prediction of Buildings; Deterministic Models Service Life Prediction of buildings; Facade Claddings Building; Factorial Models Service Life Prediction of buildings; Identifying Patterns of Degradation; Mathematical Models Service Life Prediction of buildings; Service Life Facade Claddings; Service Life Prediction of Buildings; Statistical Tools Service Life Prediction of Buildings; Statistical Tools Sustainable Construction; Stochastic Models Service Life Prediction of buildings, Facade Claddings Building, Identifying Patterns of Degradation, Non-Fiction, SCI/TECH, Science/Math, Service Life Facade Claddings, Service Life Prediction of Buildings, Statistical Tools Sustainable Construction, Switzerland
- **marka:** Springer
- **kod unspsc:** 55101500
- **kod podmiotu:** COM072000, DES009000, MAT003000, MAT029000, TEC009020, TEC027000, 1635, 1585, 1627, 1681, 1685, UYM, TNKX, UYM, TNKX, TJF, AK, PBWH, TBJ, PBT
- **grupa docelowa:** College/University
- **numer części:** 9783319814773
- **kolor:** White
- **waga opakowania przedmiotu:** 0.68 kilograms
- **wydanie:** Softcover reprint of the original 1st ed. 2016

- **zewnętrznie przypisany identyfikator produktu:** 331981477X, 9783319814773, 09783319814773
- **producent:** Springer
- **tytuł serii:** Green Energy and Technology
- **autor:** Silva, Ana, de Brito, Jorge, Gaspar, Pedro Lima
- **gatunek muzyczny:** Electronics engineering, Conservation of buildings & building materials, Computer modelling & simulation, Mathematical modelling, Maths for engineers, Industrial, commercial art & design, Probability & statistics, TECHNOLOGY & ENGINEERING, Nanotechnology & MEMS, TECHNOLOGY & ENGINEERING, Civil, General, COMPUTERS, Computer Simulation, MATHEMATICS, Applied, DESIGN, Industrial, MATHEMATICS, Probability & Statistics, General, HC, Technik, Allgemeines, Lexika, HC, Technik, Bautechnik, Umwelttechnik, HC, Informatik, EDV, Anwendungs-Software, HC, Mathematik, Wahrscheinlichkeitstheorie, Stochastik, Mathematische Statistik, HC, Kunst, Innenarchitektur, Design, Electronics engineering, Conservation of buildings and building materials, Computer modelling and simulation, Mathematical modelling, Maths for engineers, Design, Industrial and commercial arts, illustration, Probability and statistics
- **Data publikacji:** 2018-05-27T00:00:01Z
- **cena katalogowa uvp:** 160.49
- **numer wydania:** 1
- **nazwa przedmiotu:** Methodologies for Service Life Prediction of Buildings: With a Focus on Façade Claddings (Green Energy and Technology)
- **data premiery:** 2018-05-27T00:00:01Z
- **data uruchomienia strony produktu:** 2018-05-30T00:17:42.921Z

Parametry

Autor	Ana Silva, Jorge de Brito, Pedro Lima Gaspar
Wydanie	Softcover reprint of the original 1st ed. 2016
Strony	440
Waga	612 grams
Język	angielski
