

Przewodnik po katalizatorach hydroprzetwarzania: regeneracja i ochrona środowiska

Indeks: 717465 Producent: ELSEVIER

Cena: 778.33 zł

Opis

Handbook of Spent Hydroprocessing Catalysts: Regeneration, Rejuvenation, Reclamation, Environment and Safety

Producent: Elsevier

- **Prawo autorskie:** © Elsevier Science & Technology
- **temat:** Technology & Engineering/Chemical & Biochemical, Technology & Engineering, Chemical & Biochemical, Science/Environmental Science (see also Chemistry - Environmental), Science, Environmental Science (see also Chemistry - Environmental), Technology & Engineering/Agriculture - Sustainable Agriculture, Agriculture - Sustainable Agriculture, The environment, Petroleum - Refining, Catalysts - Recycling, SCIENCE / Chemistry / Industrial & Technical, SCIENCE / Chemistry / Physical & Theoretical, SCIENCE / Environmental Science (see also Chemistry / Environmental), Science/Environmental Science (see also Chemistry - Environmental), TECHNOLOGY & ENGINEERING / Agriculture / Sustainable Agriculture, TECHNOLOGY & ENGINEERING / Chemical & Biochemical, Technology & Engineering/Agriculture - Sustainable Agriculture, Technology & Engineering/Chemical & Biochemical, Catalysis, Chemical engineering, The environment, Industrial chemistry and chemical engineering, Catalysts;Recycling., Petroleum;Refining.
- **wiążący:** paperback
- **język:** english, english, english
- **waga przedmiotu:** 953 grams
- **strony:** 468
- **słowo kluczowe tematu:** Abrasives; Alloys; Bifunctional catalysts; Bioleaching; Bricks; Catalyst activity; Catalysts for slurry bed; Ceramics; Classification of solid waste; Coke formation; Coke removal; Coke; Commercial processes; Commercial regeneration processes; Construction materials; Conventional metals; Deactivation kinetics and modeling; Deactivation; Development and properties of catalysts; Developments in petroleum refining; Disposal in landfills; Economic assessment; Environment and safety of refining; Environment and safety; Environmental and safety regulations; Gas purification sorbents; Guard bed trap; Hazardous solid wastes; High severity; $\frac{1}{2}$ Low severity; Hydrocracking; Hydroprocessing feeds; Hydroprocessing reactors and systems; Hydroprocessing; Leaching with inorganic agents; Leaching with organic agents; Metal reclamation; Metals deposition; Metals separation; Modeling of regeneration; New catalysts from spent catalysts; Noble metals; Organic and inorganic leaching agents; Oxidative desulfurization; Oxidative regeneration; Petroleum refinery; Petroleum; Platinum group metals; Poisoning and inhibition of catalysts; Precious metal-containing catalysts; Reductive regeneration; Refractories; Regeneration and rejuvenation; Rejuvenation kinetics; Rejuvenation modeling; Rejuvenation plant design; Selective catalytic reduction; Spent catalyst deactivation; Spent catalyst recycling by regeneration and rejuvenation; Spent catalyst reprocessing; Spent catalyst; Spent catalysts; Spent hydroprocessing catalysts; Synthetic aggregates; Unconventional catalysts; Waste water treatment agents; World crude oil supply, Handbook, Non-Fiction, SCI/TECH, Scholarly/Graduate, Science/Math,

Western Europe

- **marka:** Elsevier
- **kod podmiotu:** TDC, SCI013060, SCI013050, SCI026000, SCI026000, TEC003070, TEC009010, TEC003070, TEC009010, PNRD, TDCB, RN
- **grupa docelowa:** General/trade
- **Liczba przedmiotów:** 1
- **waga opakowania przedmiotu:** 1.02 kilograms
- **wydanie:** 2nd ed.
- **zewnętrznie przypisany identyfikator produktu:** 0444638814, 9780444638816, 09780444638816
- **producent:** Elsevier
- **autor:** Marafi, Meena, Stanislaus, Anthony, Furimsky, Edward
- **gatunek muzyczny:** Technology & Engineering, Chemical & Biochemical, Science, Environmental Science (see also Chemistry - Environmental), Technology & Engineering, Agriculture - Sustainable Agriculture, The environment
- **Data publikacji:** 2017-01-23T00:00:01Z
- **numer wydania:** 2
- **nazwa przedmiotu:** Handbook of Spent Hydroprocessing Catalysts: Regeneration, Rejuvenation, Reclamation, Environment and Safety
- **data premiery:** 2017-01-23T00:00:01Z
- **data uruchomienia strony produktu:** 2017-01-17T00:57:18.678Z

Parametry

Autorzy	Meena Marafi, Anthony Stanislaus, Edward Furimsky
Wydawnictwo	Elsevier
Wydanie	2 edycja
Liczba stron	468
