Opis

Sharkoon REV300 RGB, obudowa PC, 4044951032129

Producent: Sharkoon Technologies GmbH

The Sharkoon REV300 RGB Interactive Gaming Case is a revolutionary addition to the REV series of cases. With a unique design that allows for easy rotation to the left side, the REV300 is perfect for gamers who want to showcase their powerful gaming system. It comes with a tempered glass side panel on the right-hand side, and all the components can be rotated by 90 degrees, offering a convenient cable management system. The case is designed for maximum airflow, with seven pre-installed fans, including 3 140mm front RGB LED fans and 3 120mm rear RGB LED fans, as well as an additional 120mm fan on the top. The case also accommodates liquid cooling with space for two radiators. The left-side tempered glass panel offers an unobstructed view of the system's components and is easily accessible with a magnetic closure.

The Sharkoon REV300 provides plenty of space for large and powerful hardware. It can accommodate graphics cards up to 34.5 cm in length, power supplies up to 27 cm in length, and CPU coolers up to 17.7 cm in height. It also has room for up to four 3.5-inch or five 2.5-inch storage devices. The case comes with several dust filters to keep the interior clean and tidy. The large pull-out dust filter at the bottom ensures that no dust enters the case, keeping your system safe and clean.

The Sharkoon REV300 RGB Interactive Gaming Case is an ideal choice for gamers who want a high-performance and stylish gaming case. It has a sleek and futuristic design and comes with RGB lighting on all seven pre-installed fans. It is a perfect addition to any high-end gaming setup. The case comes with a 2-year manufacturer's warranty, and with its sturdy build, it is sure to last for many years of gaming.
