Opis

The Spectrum of Hyperbolic Surfaces

Producent: Springer

- **temat:** Non-Euclidean geometry, Complex analysis, complex variables, Cybernetics & systems theory, MATHEMATICS / Geometry / Non-Euclidean, MATHEMATICS, Geometry, Non-Euclidean, MATHEMATICS / Mathematical Analysis, Mathematical Analysis, SCIENCE / System Theory, SCIENCE, System Theory, Hyperbolic Geometry, Abstract Harmonic Analysis, Dynamical Systems, HC/Mathematik/Geometrie, HC, Mathematik, Geometrie, HC/Mathematik/Analysis, Analysis, Hyperbolic surfaces;Arithmetic manifolds;Laplacian;Maass forms;Quantum chaos;Selberg trace formula, Cybernetics and systems theory, MATHEMATICS / Complex Analysis, MATHEMATICS / Differential Equations / General, MATHEMATICS / Geometry / Non-Euclidean, MATHEMATICS / Linear & Nonlinear Programming, MATHEMATICS / Mathematical Analysis, Mathematics/Differential Equations - General, Mathematics/Geometry - Non-Euclidean, Mathematics/Mathematical Analysis, SCIENCE / System Theory, Science/System Theory, Complex analysis, complex variables, Cybernetics & systems theory, Non-Euclidean geometry, Nonlinear science, Cybernetics and systems theory, Komplexe Analysis, komplexe Variablen, Funktionentheorie, Kybernetik und Systemtheorie, Nichteuclidische Geometrie, HC/Mathematik/Analysis, HC/Mathematik/Geometrie, Hardcover, Softcover / Mathematik/Geometrie, Analysis, Differenzialgleichung, Differenzialrechnung, Geometrie, Nichtlinear, Wissenschaft
- **wiążący:** paperback
- **język:** english, english, english
- **waga przedmiotu:** 544 grams
- **strony:** 383
- **słowo kluczowe tematu:** Arithmetic manifolds; Laplacian; maass forms; quantum chaos; Selberg Trace Formula, Hyperbolic surfaces; Arithmetic manifolds; Laplacian; Maass forms; Quantum chaos; Selberg trace formula, Hyperbolic surfaces;Arithmetic manifolds;Laplacian;Maass forms;Quantum chaos;Selberg trace formula, Non-Fiction, Scholarly/Graduate, Science/Math, TEXT, Textbooks (Various Levels), Western Europe
- **marka:** Springer
- **kod unspsc:** 55101500
- **kod podmiotu:** MAT040000, MAT007000, MAT012040, MAT017000, MAT034000, MAT007000, MAT012040, MAT034000, SCI064000, SCI064000, 1626, 1624, 1624, GPFC, PBKD, GPFC, PBML, ANAL8000, DIFF3100, DIFF4000, GEOM5000, NICH4800, WISS3000, PBKD, GPFC, PBML, PBWR
- **grupa docelowa:** General/trade
- **Liczba przedmiotów:** 1
- **numer części:** 44168578
- **kolor:** Yellow
- **waga opakowania przedmiotu:** 0.35834 kilograms
- **wydanie:** 1st ed. 2016
- **zewnętrznie przypisany identyfikator produktu:** 3319276646, 9783319276649, 09783319276649
- **producent:** Springer
- **tytuł serii:** Universitext
- **autor:** Bergeron, Nicolas

- **gatunek muzyczny:** Non-Euclidean geometry, Complex analysis, complex variables, Cybernetics & systems theory, MATHEMATICS, Geometry, Non-Euclidean, MATHEMATICS, Mathematical Analysis, SCIENCE, System Theory, HC, Mathematik, Geometrie, HC, Mathematik, Analysis, Non-Euclidean geometry, Complex analysis, complex variables, Cybernetics and systems theory
